Confidence Behind Every Decision

Wiser gives you clarity, so you act faster and smarter, every time.

Accurate, complete data allows you to move forward without hesitation. Wiser delivers both, revealing opportunities others might miss, so your team spends less time validating the data and more time acting on it.

Three Pillars of Reliable Data

Precise Associations

Rely on accurate product matches to make confident pricing, promotion, and assortment decisions that move your business forward.
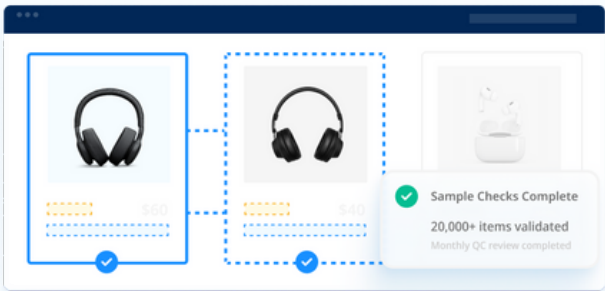

Quality Checks

Proactive monitoring keeps your data dependable, catching potential issues before they affect your strategy.
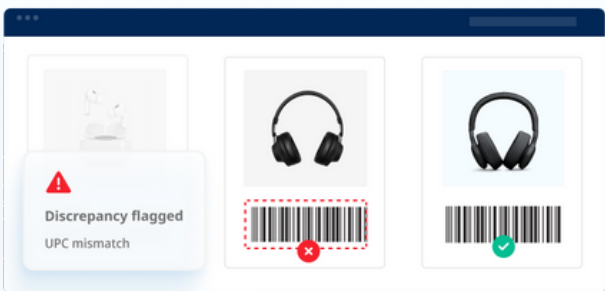

Market Coverage

Operate with confidence knowing every relevant product listing is included, for the full market picture you need to act decisively.
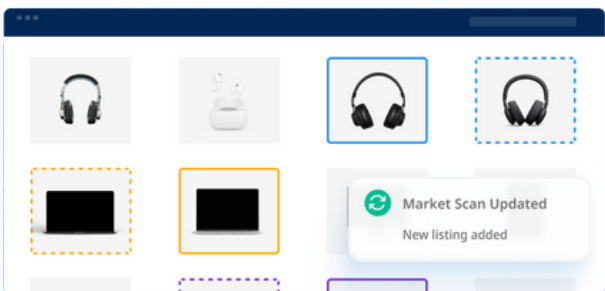

How Wiser Ensures Accuracy

Ongoing Sample Checks

Products are automatically matched using our proprietary algorythm, with a dedicated QC team reviewing over 20K product matches monthly to keep associations precise and comparisons reliable.

Real-Time Error Alerts

Automated alerts and human oversight flag discrepancies or UPC mismatches the moment they appear, preventing bad data from ever reaching your strategy.

Complete Coverage Monitoring

Every relevant listing is captured and kept current, so you see the full market picture without any blind spots. Regular website reviews quickly fix gaps and adjust processes to prevent them from happening again.
