1. Locate and Open the Export Menu

- Select New Export to create a one-time report or choose from existing schedules.
- Customize the file by choosing which columns and filters to include.

Tip: Use instant exports to back up seller discussions or answer leadership questions fast.

2. Set a Schedule

- Create daily or weekly report schedules to keep compliance monitoring consistent.
- Add teammates' emails to deliver reports automatically.

Tip: Schedules keep reports consistent. Set different ones for sales, legal, or leadership.
